

If I Didn't
Have
you

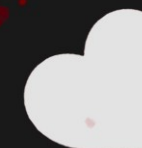

Our Song

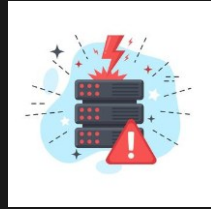

14:02

20:26

If I didn't have
you, *life would be blue*
I'd be a server down with
no restart

A `</codebase>` with no
tests, a merge that's a
mess

I'd be debugging bugs in
the dark

I'd be Git
Without COMMIT,
a function
throwing fits
Like null refs
crashing all my
flow

I'd be logic with no
plan,

a loop that never
ends 🎵

Still stuck where I
was years ago

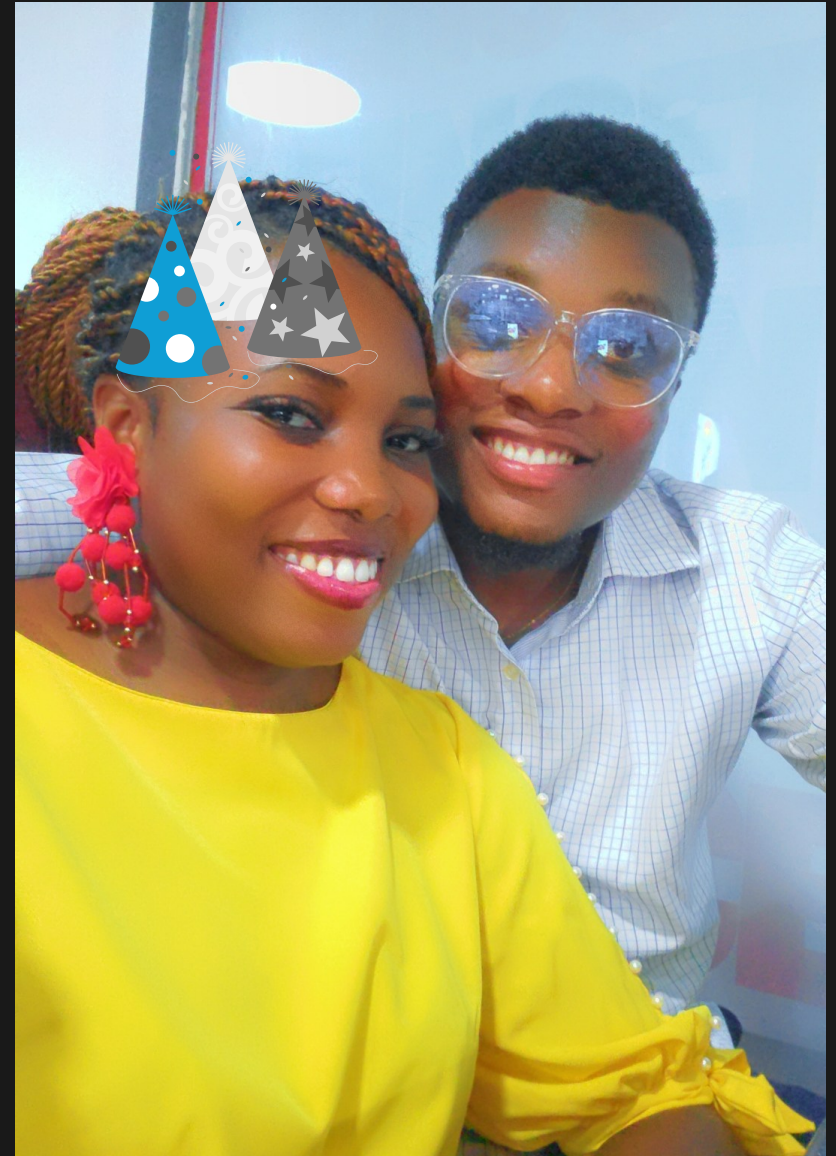

I'd be an app with no UI, a query with
no reply

And I'd probably still live on my own

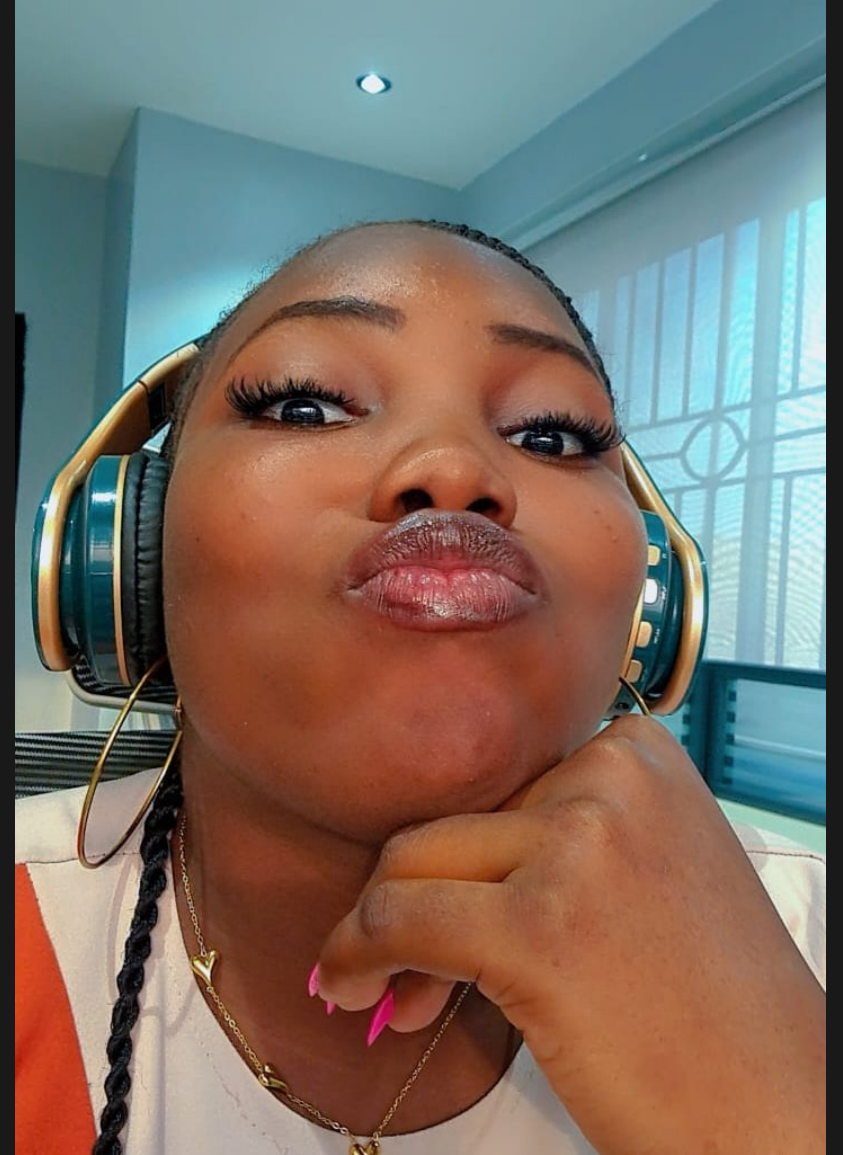

Yeah, I'd probably
still be on my own

[Chorus]
Ever since I met you,
you turned my world
around

You made
sense of all
my scattered
code

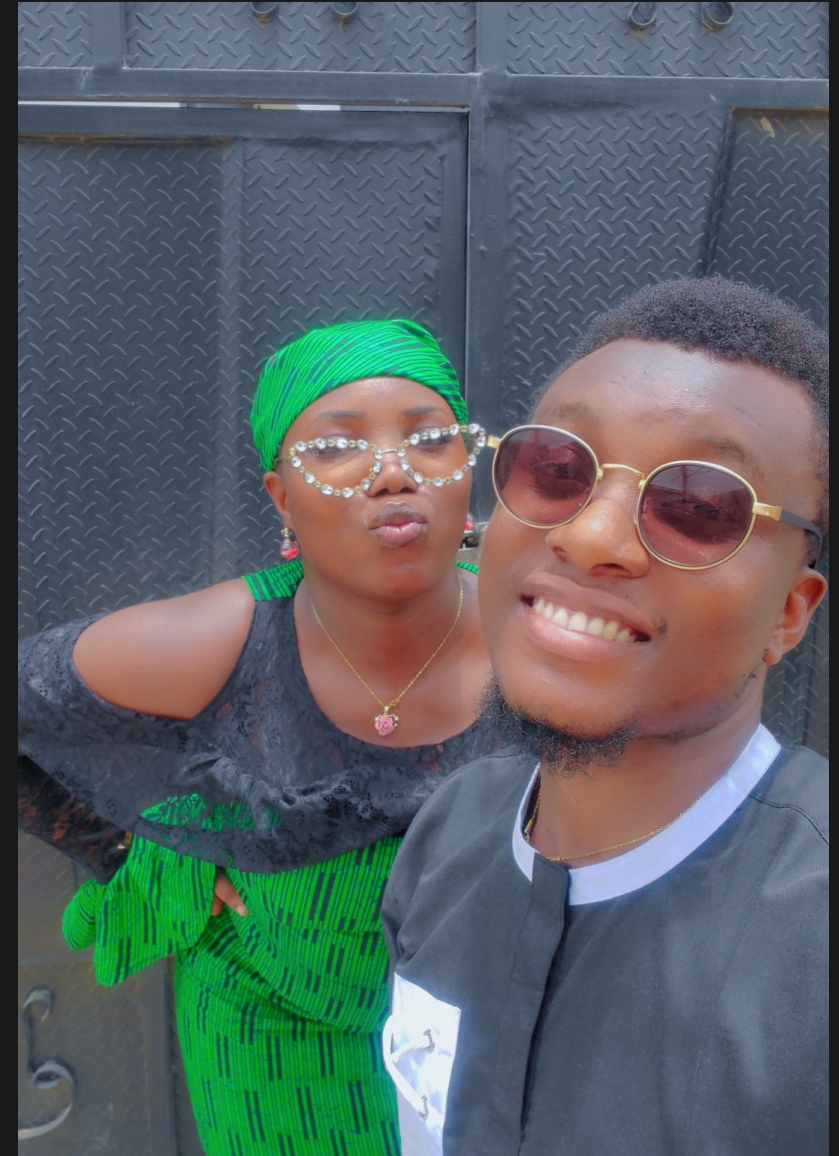

You're like frontend
and backend in
perfect sync
Running smoothly
in one mode

I couldn't have
imagined
How good **my** life
would get

*From the
moment that
I met you,
Chinenye*
